

## Alpha-H Anti-Pigmentation Kit

Exposure to the sun is the no.1 cause of damage to the skin. The sun-loving lifestyle is great for your tan, but it unfortunately results in lines, wrinkles, age spots and signs of premature ageing. Alpha-H's Anti-Pigmentation Kit is designed to treat and protect sun damaged skin, replacing essential elements the sunshine has taken out and reinforcing the skin's natural ability to heal and renew.

*This kit contains a 50mL Balancing Cleanser, a 50mL Balancing Moisturiser with Gentle Exfoliant, a 100mL White Gold, a 50mL Ultra Protector with 30+SPF and a 15mL Vital C Serum.*

Alpha-H Balancing Cleanser is a gentle creamy cleanser that softly hydrates and cleanses the skin without drying and stretching. It removes all traces of face and eye makeup whilst balancing the skin. This is a three in one action that thoroughly cleans without a fuss. The Balancing Moisturiser with Gentle Exfoliant is a fast absorbing, lightly moisturising lotion that assists in the natural renewal and refinement of skin texture. It helps to improve elasticity, the appearance of fine lines and wrinkles are diminished and open pores, acne scarring, pigmentation and age spots are minimised.

*The White Gold targets pigmentation associated with ageing and sun damage, leaving skin brighter and more radiant than ever before. It also improves the skin's ability to retain moisture.*

The Alpha-H Ultra Protector is a daily moisturiser providing the ultimate daily defense system to shield your skin against the harsh environmental conditions that cause premature ageing. It will not clog pores and is suitable to wear under makeup. This sunscreen/ daily moisturiser is a broad spectrum UVA / UVB protector for all skin types. The Alpha-H Vital C is Vitamin C and Olive Leaf extract, which come together to create one of the most nutrient-rich and concentrated treatments on the market – a powerful, intensive serum for dehydrated, pigmented or mature skin.

The Anti-Pigmentation Kit is a great starter point for newbies to the range; it is also a great travel size companion.

New Skin Begins with the Alpha-H Anti-Pigmentation Kit.
